WWW.MALIBU-VANS.COM

There's a lot more to say about our vans than we can fit in the catalogue! This is why we provide you with lots of additional information on our web site. Get some inspiration and conveniently navigate through your dream Malibu at your leisure from home or on the move! Simply scan the QR codes in the catalogue with the camera of your Smartphone or tablet, and let yourself be taken straight to the topic.

Patented – leading by means of innovation!

Registrations for patent approval are specific to the model and country. The designations can differ.

THE MALIBU PREMIUM VAN: IF YOU'D LIKE A LITTLE MORE

A unique success story covering more than four decades is behind Malibu. Karl-Heinz Schuler, the founder of the Carthago Group, developed the first Malibu vans back in 1979 – at the highest innovation and quality level. Embedded in the owner-operated Carthago Group, every Malibu Van now benefits from the innovative strength, top class technology and quality claim of the motorhome premium class. You can see the unique holiday quality of the Malibu Van for yourself at the Malibu Van sales exhibition in Aulendorf or at one of our dealers. Even better: put your dream van to the test with our Test & Rent programme. Do you want more? More travel comfort, more quality, more sophistication? If so, the Malibu van is your perfect holiday companion. It combines the handy dimensions of a van with the comfort of a large motorhome.

There are many vans, but only one Malibu van. It is the van full of ideas. Be it in the concept or the detail – the experience of more than 40 years of motorhome construction and the ingenuity of its developers can be found in every Malibu van. The product of many years of work. You can feel it on every day of your holiday. For example, in the unique living and sleeping comfort, the unbelievably large and functional storage space which has been worked out to the last detail, in the elaborate and comprehensive main body insulated for travelling in all seasons or in the extremely stable furniture construction with long-lasting quality. The carefully selected materials and high quality craftsmanship are the basis of an exceptionally exclusive design. This all results in a clearly formulated premium claim: Malibu Van means “best van in class“.

Head office of the Carthago Group in Aulendorf, Upper Swabia

comfort 640 LE | exterior colour white

A UNIQUE SUCCESS STORY

1979

“We can do better than that” thought Karl-Heinz Schuler after seeing a camper van. No sooner said than done: on 1st July 1979, he established his own Carthago motor-home brand.

1991

When the change to the VW T4 took place, different wheelbases and layouts were added, and there was even an initial version with a bathroom.

2019 & 2020

The Malibu Van won the promobil “Camper vans with bathrooms” reader vote. The number one favourite is the Malibu Van Charming GT skyview, which gives you a completely new feeling of spaciousness and ride comfort.

2023

It has successfully continued its outstanding career: the Malibu Van wins the promobil reader's vote* for the fourth time in a row.

* Winner of the promobil reader's vote in 2019 and 2020 in the category of camper vans with bathrooms, in 2022 in the category of camper vans with bathrooms costing more than €50,000, and in 2023 in the category of camper vans with bathrooms costing more than €60,000

1985

Carthago started its rapid growth by specialising in VW bus conversions. Solid design, practical and inventive interior, individual special features – the successful concept already existed back then.

2013

The Malibu Van is back! The modern interpretation of the feel-good camper van is quickly becoming a favourite among motorhome enthusiasts. The inauguration of Carthago City also took place in Aulendorf in southern Germany with a large sales showroom.

2021

Two new models presented! The innovative Malibu Van first class – two rooms with the two-room concept and generous feeling of spaciousness and unique family-for-4 pop-up roof with the unique hybrid design for four fully-fledged sleeping berths. The Malibu Van family-for-4 wins the European Innovation Award in the “Overall Van Concept” category.

BEST VAN IN CLASS – MALIBU IMPRESSES

“The loading situation was evaluated as fantastic [...]. [...] Malibu places value on it and sets standards. [...] The variable rear storage compartment is good. [...] I also like the idea with the intermediate floor in the rear. On the whole, I find the storage compartment concept very well done and practical.”

Campingbusse, 01/2023 | Introduction: Malibu Van first class – two rooms 640 LE RB

“The Duo is ideal for everyday use on 365 days of the year.”

Camping, 12/2022 | Introduction: Malibu Van compact 540 DB and 600 LE

“They are all based on the Fiat Ducato with a high roof, and are characterised by having outstanding living and sleeping comfort, surprisingly large storage compartments with maximum functionality and easy access, elaborate and comprehensive body insulation and an extraordinarily stable furniture construction with long-lasting quality.”

Camping, 12/2022 | Introduction: Malibu Van model range

“And the biggest positive? As well as the storage space it has to be the bed. The manufacturer has made full use of the 6.40 metre length of the basic vehicle and built a phenomenal lengthways bed in the rear. The slatted frame, the quality of the mattress and particularly the size [...] are exemplary.”

Campingbusse, 01/2023 | Introduction: Malibu Van first class – two rooms 640 LE RB

“The showers work splendidly in the Malibu, also because of the swivelling toilet.”

Camper Vans, 04/2022 | Endurance test: Malibu Van diversity coupé 640 LE K

“These lengthways beds set standards. [...] Access, comfort, shelves, storage compartments above and below. A dream for people who do a lot of travelling. [...] The room dividing door including swivelling element screens the sleeping area and the bathroom from the front living area with complete privacy. You won't find that anywhere else.”

Campingbusse, 01/2023 | Introduction: Malibu Van first class – two rooms 640 LE RB

MALIBU VAN

FIRST CLASS – TWO ROOMS

first class – two rooms 640 LE RB | Cherry Style world of style | Paris world of living

INNOVATIVE LAYOUT WITH UNIQUE TWO-ROOM CONCEPT AND GENEROUS FEELING OF SPACIOUSNESS

Unbelievably open feeling of spaciousness with considerable freedom of movement. Multi-functional bathroom with room partitioning door from living area and changing room function. Changing room extension thanks to the bathroom wall, which swivels inwards.

Model 640 LE RB

STANDARD EQUIPMENT:

Large lounge seating area

Two-room concept with room partitioning door

84 l compressor fridge in front of kitchen area

Universal tall cabinet

XL flexi-washroom "1000+ function changing room"

Large wardrobe / linen cabinet beneath rear bed

OPTIONS:

Two worlds of style

charming GT skyview / coupé

family-for-4 hybrid pop-up roof

Bathroom not shown in image

PREMIUM KITCHEN

1 first class - two rooms 640 LE RB | Premium kitchen with large worktop

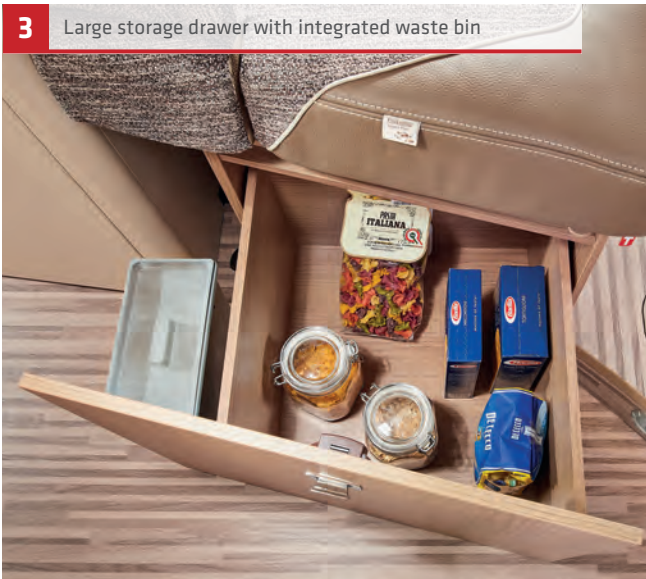

2 84 l compressor fridge interior access

2 Exterior access to fridge

3 Large storage drawer with integrated waste bin

4 Storage compartment in seat bench

The advantages of the premium kitchen

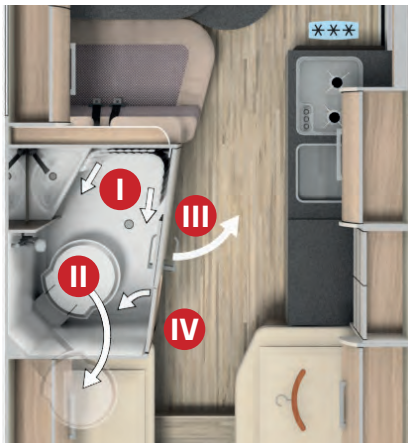

- 1 Large kitchen worktop and three deep roller-mounted kitchen drawers with soft closing mechanism and integrated wooden cutlery insert
- 2 Powerful 84 l compressor fridge integrated in the entrance area at the front of the kitchen, and therefore convenient access from the inside and the outside
- 3 Large storage drawer for kitchen provisions with pull-out, integrated waste bin (in separate hygiene area) at front of seat bench
- 4 Convenient access to the seat bench storage compartment from above without having to remove the upholstery using "One touch access"
- 5 Two-ring gas hob with electrical igniter and practical glass cover
- 6 Integrated sink cover for additional work and storage area
- 7 The universal tall cabinet can be used individually as a kitchen cabinet, a linen cupboard or an extra-high wardrobe

CHANGING ROOM - UNIQUE IN THE VAN CLASS

1 first class - two rooms 640 LE RB | Two-room concept with changing room thanks to partitioning from the living area

Driving and living configuration

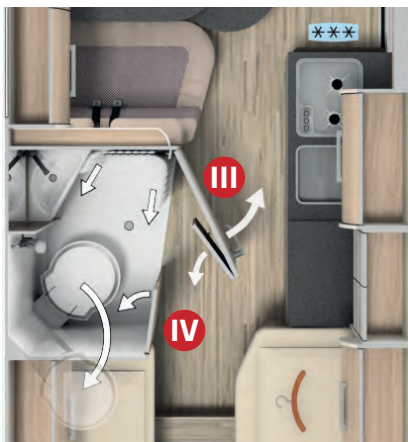

The two sectional louvres **I** provide simultaneous and variable partitioning of the bathroom, toilet or shower cabinet from the changing room.

The swivelling toilet **II** makes perfect use of space possible.

The room dividing door including swivelling element **III** is used to separate the living area from the changing room.

The hinged bathroom wall **IV** provides maximum freedom of movement.

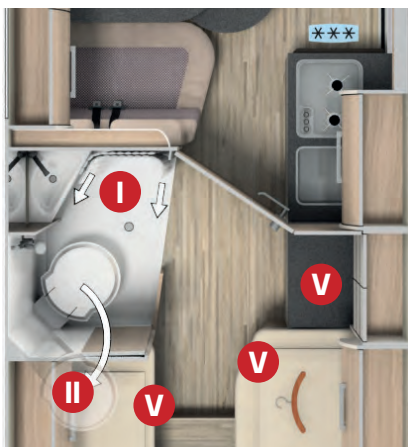

Room partitioning

Separation from the living area and therefore the changing room is provided with just two manual operations by opening the room dividing door **III** and folding out the swivelling element.

Thanks to the bathroom wall which swivels inwards into the bathroom **IV**, maximum freedom of movement is provided, particularly in the shoulder area.

Changing room

The finished changing room with room partitioning from the living area, the extended room for movement as far as the bathroom and access from the changing room to the separate wardrobes and linen cupboards beneath the lengthways single beds and the universal tall cabinet **V**.

The two sectional louvres **I**: with dual function:

- Shower partitioning
- Simultaneous partitioning of the bathroom and the toilet from the changing room

The swivelling toilet **II** in the parked position.

The advantages of the changing room

- 1 The changing room is created thanks to partitioning from the living area by the room dividing door with swivel element
- 2 More freedom of movement is provided thanks to the swivelling bathroom wall
- 3 Two sectional louvres can be used as an alternative for closing off the bathroom
- 4 The separate wardrobes and linen cupboards beneath the lengthways single beds and the universal tall cabinet can be conveniently accessed from the changing room

WARDROBES

1 Universal tall cabinet

2 Extra-large wardrobe with access from the front and above

3 Large linen cupboard with "One touch access"

The advantages of the storage compartment and the wardrobes

- 1 The universal tall cabinet can be used individually as a kitchen cabinet, linen cupboard or extra-high wardrobe – all functions can be combined
- 2 Extra-large wardrobe beneath lengthways single bed at the passenger side, conveniently accessible from above and the front thanks to the lift function and the separate mattress section
- 3 Large linen cupboard with two separate storage compartments beneath the lengthways single bed at the driver side, conveniently accessible from above via the flap mechanism and "One touch access"

Advantages of the compact kitchen

- 1 Large work surface thanks to flush work surface extension and multifunctional sink cover
- 2 Convenient access to the powerful 84 l compressor fridge thanks to continuous, one-level floor as far as the open bathroom, free of trip hazards
- 3 Large storage drawer for kitchen provisions
- 4 Three wide roller-mounted kitchen drawers with double locking, self and soft closing mechanism and integrated wooden cutlery insert
- 5 Two-ring gas hob with electrical igniter and practical glass cover

COMPACT BATHROOM

1 Toilet can be swivelled away

2 Folding washbasin – space-saving and practical

3 Completely separable shower

Advantages of the compact bathroom

- 1 The swivelling toilet provides maximum comfort in a very small space
- 2 The practical, space-saving washbasin is simply swivelled out of the wall when it is needed
- 3 Shower can be completely separated thanks to sliding doors which keep the surroundings reliably dry, creating a real shower with plenty of room – without the shower curtains which are often used
- 4 All functions are available with just one manual operation

SLEEPING

The advantages of sleeping

- 1 Transverse rear bed with large sleeping area and extra-low bed access of just 64 cm (540 DB)
- 2 Large linen cupboard and wardrobe above transverse rear bed (540 DB)
- 3 Lengthways single bed "200+" with sleeping length of more than 200 cm at the passenger side and convenient bed access thanks to the removable entrance steps with storage compartment (600 LE)
- 4 Extra-large wardrobe beneath lengthways single bed at passenger side, conveniently accessible from above and the front thanks to the lift function and the separate mattress section (600 LE)
- 5 Large linen cupboard with two separate storage compartments beneath the lengthways single bed at the driver's side, conveniently accessible from above via the flap mechanism and "One touch access" (600 LE)
- 6 All-round overhead storage compartments with open corner shelves (540 DB)
- 7 Overhead storage compartments and corner shelves at driver and passenger side (600 LE)
- 8 Ventilated slatted frame and quality cold foam mattress
- 9 Cold and impact protection at the rear windows

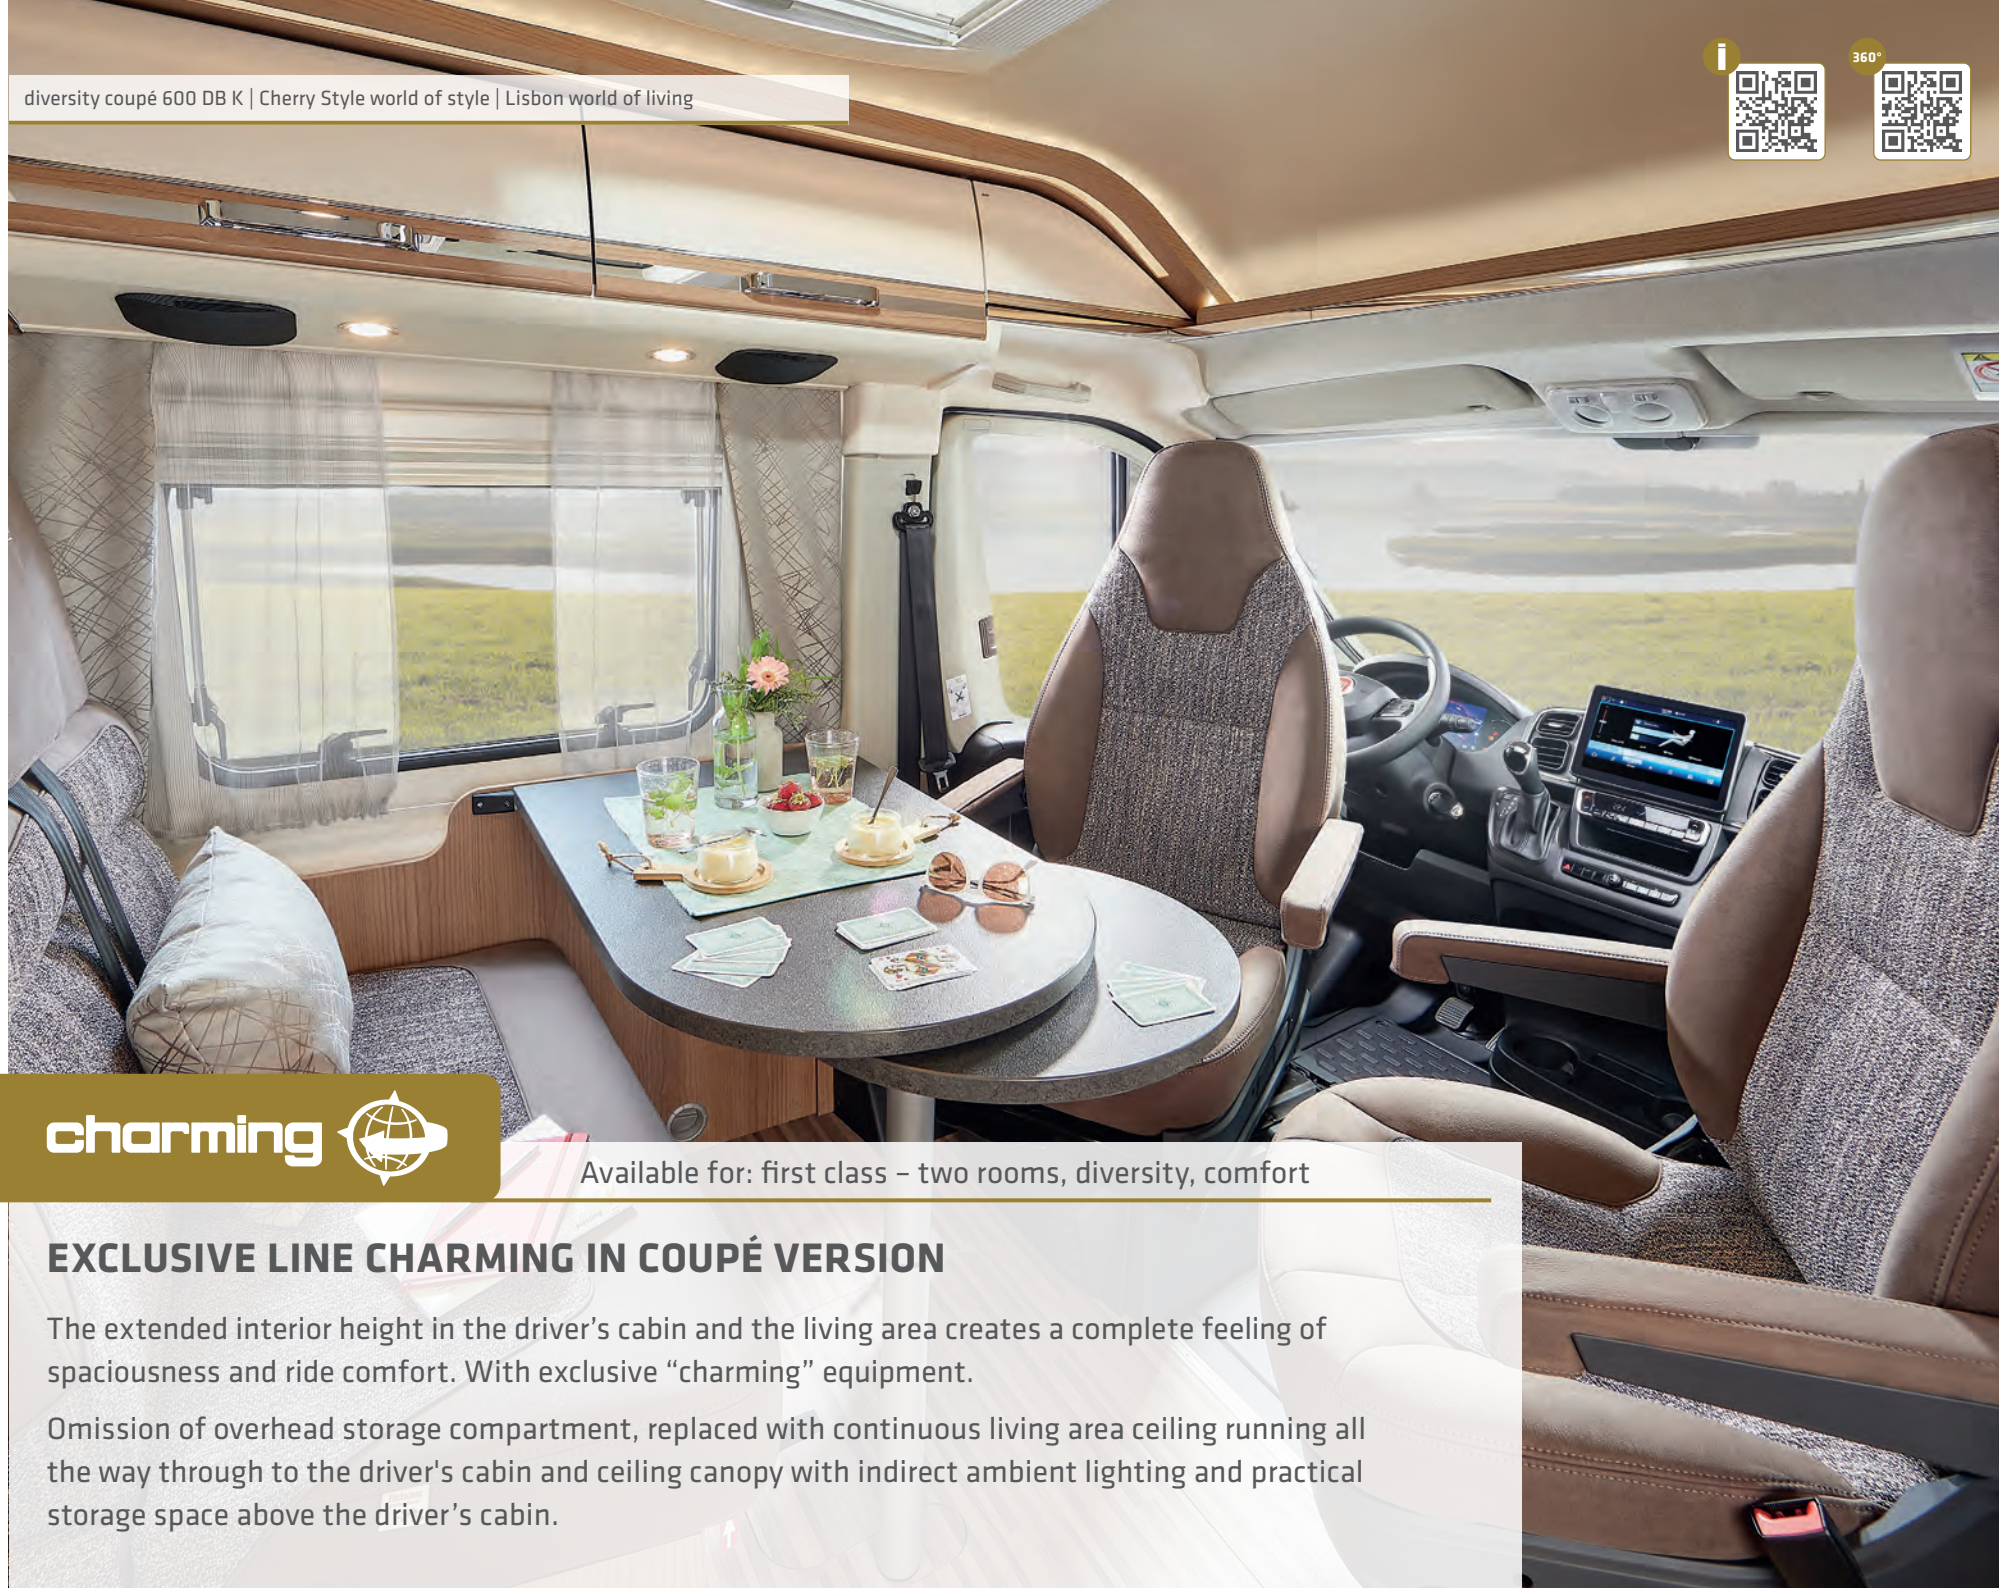

Available for: first class – two rooms, diversity, comfort

EXCLUSIVE LINE CHARMING IN GT SKYVIEW VERSION

The extended interior height in the driver's cabin and the living area creates a complete feeling of spaciousness and ride comfort. With exclusive "charming" standard equipment.

Omission of overhead storage compartment, replaced with panoramic skylight with leather-covered interior headliner from driver's cabin to above the lounge seating area.

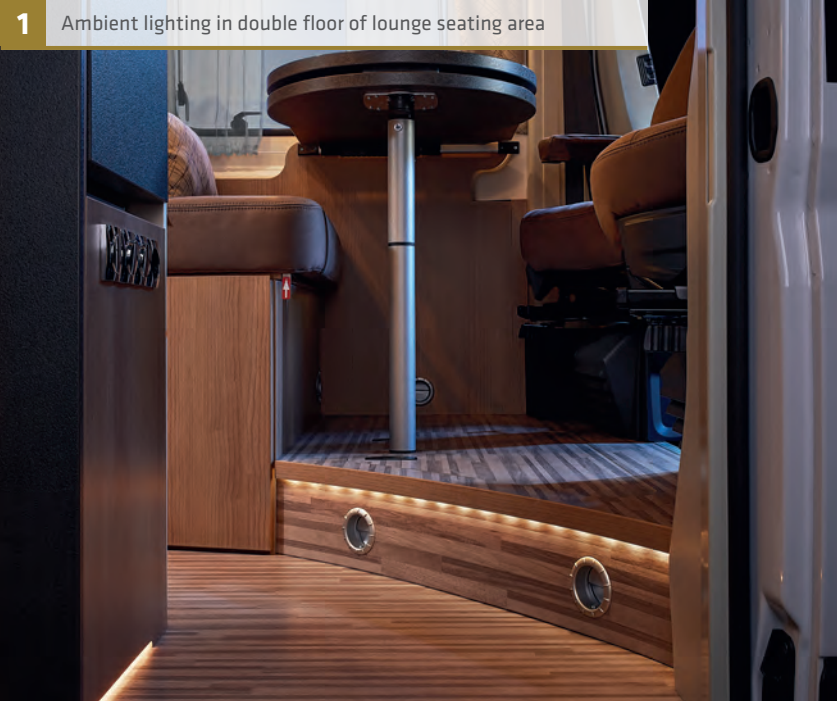

Available for: first class – two rooms, diversity, comfort

EXCLUSIVE LINE CHARMING IN COUPÉ VERSION

The extended interior height in the driver's cabin and the living area creates a complete feeling of spaciousness and ride comfort. With exclusive "charming" equipment.

Omission of overhead storage compartment, replaced with continuous living area ceiling running all the way through to the driver's cabin and ceiling canopy with indirect ambient lighting and practical storage space above the driver's cabin.

EXCLUSIVE "CHARMING" STANDARD EQUIPMENT

4 Leather steering wheel and gear lever

5 Extended exterior decoration

MORE VAN. MORE VALUE. MORE HOLIDAY.

The Carthago Group has been an independent family-run company and permanent feature of the motorhome industry for more than 40 years. Founder and owner Karl-Heinz Schuler talks about what makes Malibu Vans so unique and about the added value which characterises our Vans.

Mr. Schuler, when did you decide to start building Vans?

Karl-Heinz Schuler Camper vans caught my attention on many occasions whilst I was studying. I examined them more closely at the time, and something became clear to me in an instant: we can do better than that! The first Malibu Van was created from this idea and motivation.

The Carthago Group has successfully established itself in the motorhome market since 1979. Did you anticipate this success story at the time?

Karl-Heinz Schuler No-one could have known at the time that we would be so successful, nor could it have been planned. Our goal was always to build the best motorhomes and vans for the high-end segment. We want to have satisfied customers. Success and growth then follow naturally.

What is the secret of your success?

Karl-Heinz Schuler The success concept of Malibu Vans is our inventive spirit, our great passion and our many years of experience. Behind all of this is a clear

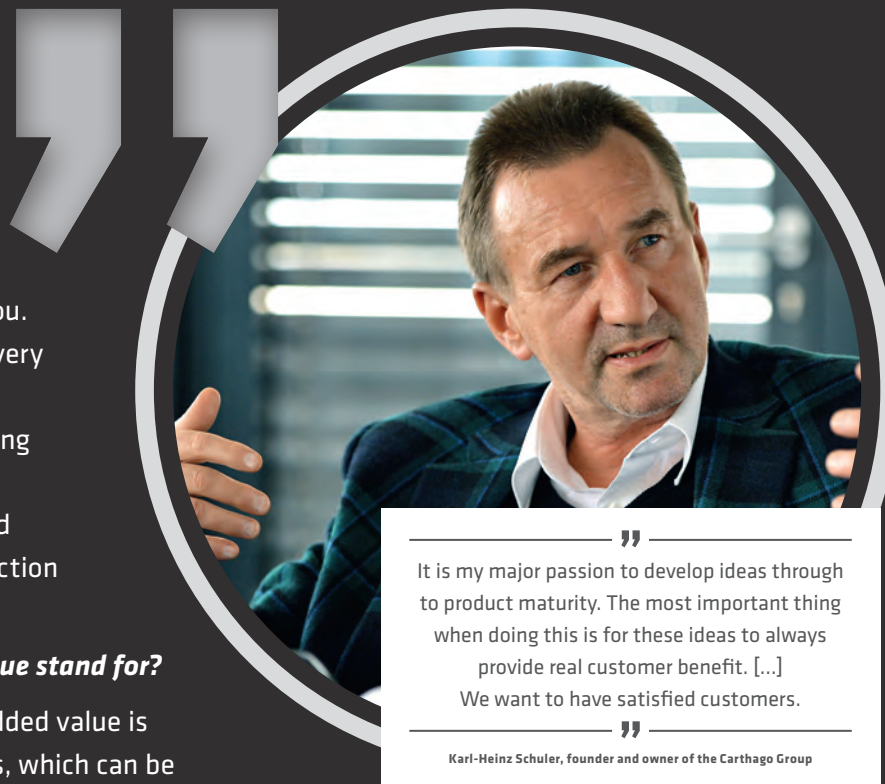

goal: more comfort, more functionality, more quality, more feeling of well-being, simply more holiday for you. It is especially important to us that every idea and every innovation is put into practice to make the everyday travelling of our customers as comfortable and relaxing as possible. The Malibu added value runs through the entire construction of every individual Malibu Van.

What does the Malibu Van added value stand for?

Karl-Heinz Schuler Our Malibu Van added value is our promise of value to our customers, which can be found in every one of our vans, representing motivation and an obligation at the same time. The huge amount of easily accessible storage space, the high quality furniture construction with double connection technology, the best travel comfort and the use of motorhome technology in the Van class are what characterise the Malibu Van added value. The Malibu name has stood for extraordinary vans since the very beginning. It is therefore no coincidence that the Malibu Van has been voted Motorhome of the Year* in its category for the last four years in succession.

How do Malibu drivers benefit from the added value?

Karl-Heinz Schuler Our core competence lies in the fact that they are the best vans in their class. Every Malibu Van benefits from our innovative strength,

”
It is my major passion to develop ideas through to product maturity. The most important thing when doing this is for these ideas to always provide real customer benefit. [...] We want to have satisfied customers.
”

Karl-Heinz Schuler, founder and owner of the Carthago Group

our state-of-the-art technology and our high quality claim. We find that only the best is good enough for our customers! A Malibu Van is a long-term purchase which retains its value well. This is characterised by the high quality furniture construction with double connection technology, the elaborate insulation measures and the well thought-out storage space solutions. You will be delighted by a Malibu Van for many years. I'll stake my reputation on that.

* Winner of the promobil reader's vote in 2019 and 2020 in the category of camper vans with bathrooms, in 2022 in the category of camper vans with bathrooms costing more than €50,000, and in 2023 in the category of camper vans with bathrooms costing more than €60,000

Huge amount of storage space with easy access

Motorhome technology in the Van class

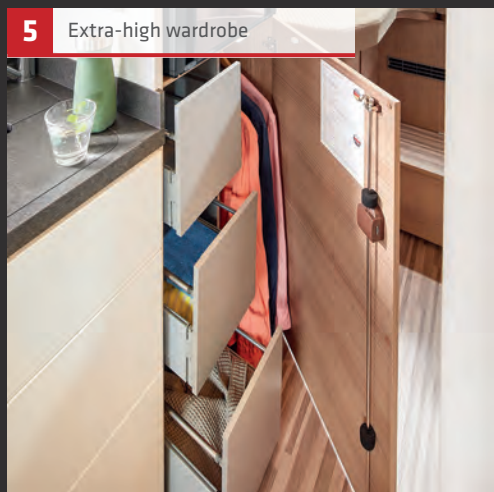

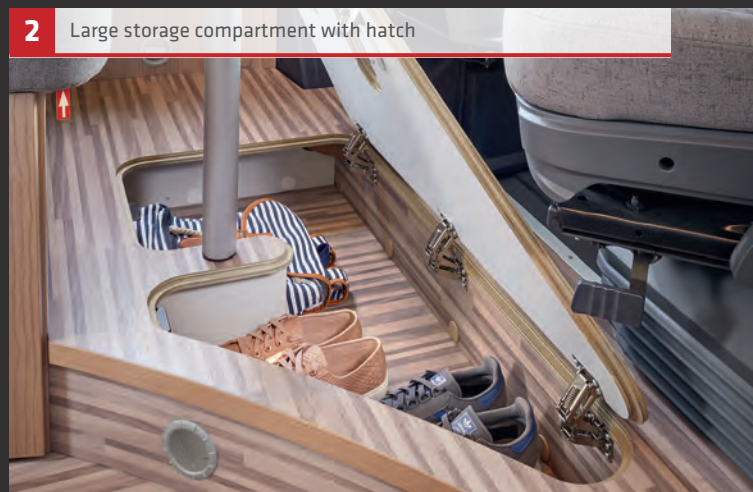

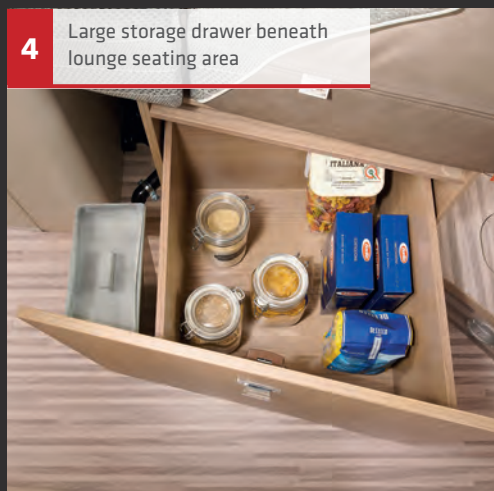

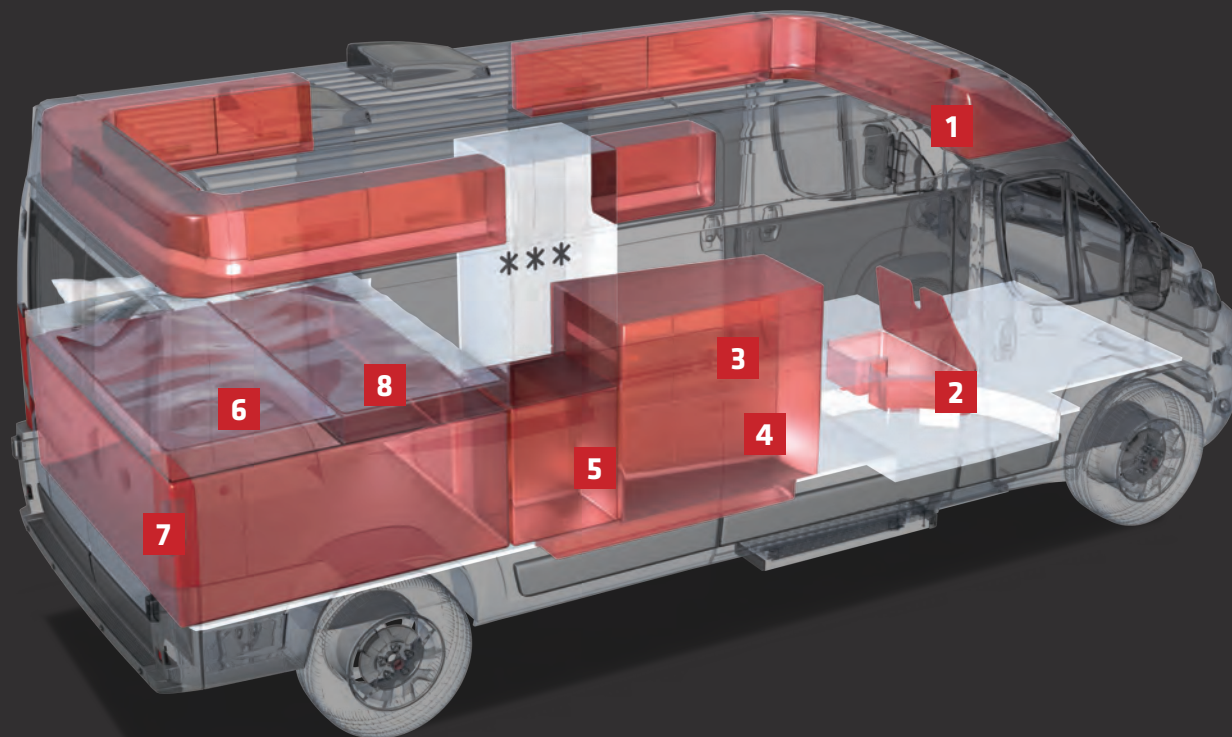

Best travel comfort in the Van class

High quality furniture construction with double connecting technology

HUGE AMOUNT OF STORAGE SPACE WITH CONVENIENT ACCESS

6 Barrier-free rear storage compartment

7 Removable double floor

8 Removable step tread

Highlights of the huge amount of storage space

- 1 Overhead storage compartment above driver's cabin with front flap (not Exclusive line charming)
- 2 Large storage compartment in double floor of lounge seating area with hatch and high quality hinges, quick and easy to access thanks to "One touch access"
- 3 Large storage compartment in seat bench accessible from above without having to remove the upholstery thanks to "One touch access"
- 4 Large storage drawer at front of seat bench, opposite the kitchen
- 5 Illuminated wardrobe beneath the fridge, three internal drawers on the left and a separate wardrobe with interior height of 100 cm on the right (600 DB, 640 LE)
- 6 Accessible rear storage compartment thanks to beds which fold up at both sides
- 7 Optional: removable double floor in rear storage compartment on two levels
- 8 Through-loading storage space with continuous floor without equipment channel thanks to completely removable steps (600 DB, 600 DB K) or completely removable entrance steps (640 LE, 640 LE K, 640 LE RB)

MOTORHOME TECHNOLOGY IN THE VAN CLASS

Malibu premium windows with surrounding frames and double sealing system for protection from rain and splash water, additional break-in protection and less driving noise (not with rear windows and porthole windows)

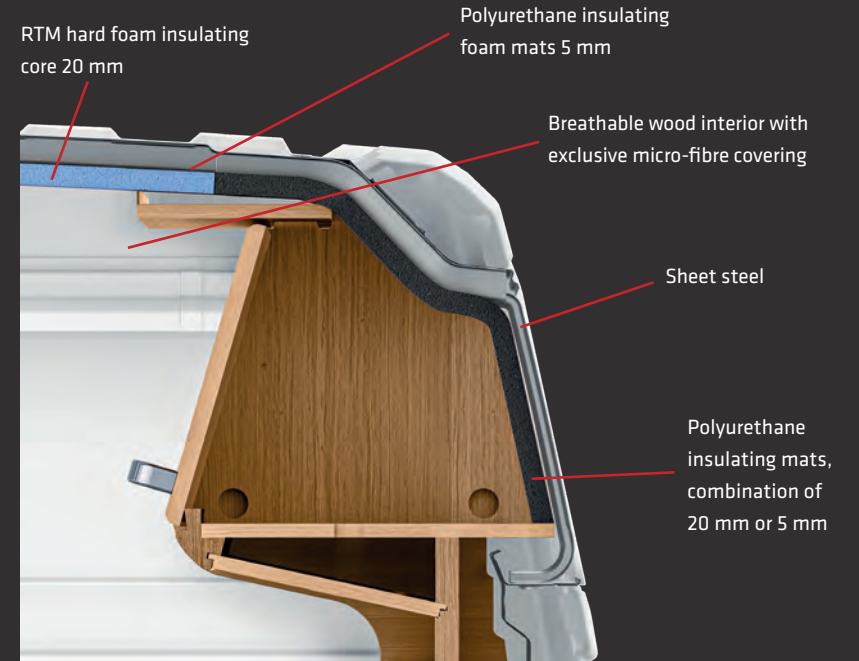

Inside of roof with 20 mm RTM hard foam insulation, breathable wood interior and exclusive micro-fibre covering

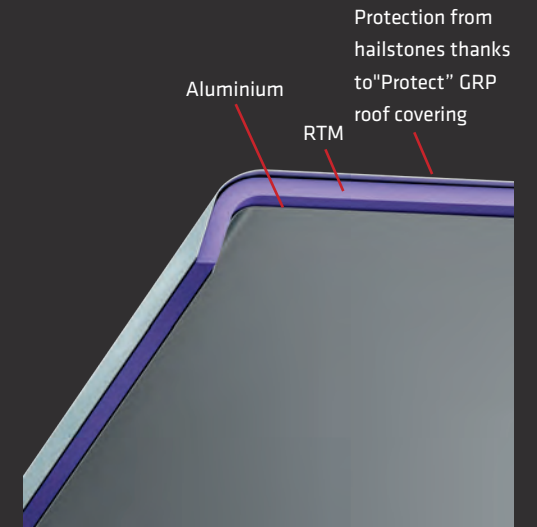

Rear wall / rear doors: cold bridge-free, lined with 20 mm polyurethane insulating mats

Living area floor panel with 20 mm RTM hard foam insulation, laminated wood panel and PVC floor covering

Side walls and main body frame members: cold bridge-free, lined with polyurethane insulating mats

Malibu Van: elaborate main body insulation measures

Malibu Van hybrid pop-up roof with the best insulation concept in its class in sandwich construction with light weight

PERFECTLY INSULATED

All Malibu vans are insulated on the inside of the roof and the living area floor panel with a 20 mm thick RTM hard foam core. The material has lifetime insulation, since it is water repelling and therefore does not absorb moisture. The RTM hard foam has a high degree of heat insulating capability. It therefore provides protection from heat in summer temperatures, and insulates against the cold in winter. The side walls and main body frame members are also elaborately lined with polyurethane insulating mats in the Malibu Van in order to prevent cold bridges. It is therefore hardly surprising that the Malibu vans are among the best-insulated vans in their class.

Highlights of motorhome technology in the Van class

- 1 Elaborate main body insulating measures: floor panel and ceiling panel with RTM hard foam insulation core. Protects from heat, cold and road noise
- 2 Side walls and main body frame members lined with polyurethane insulating mats to prevent cold bridges
- 3 Micro-fibre climate-enhancing covering on interior walls and ceiling – for optimum insulation and avoiding creaking noises while driving
- 4 6-year leak-proof guarantee as standard¹

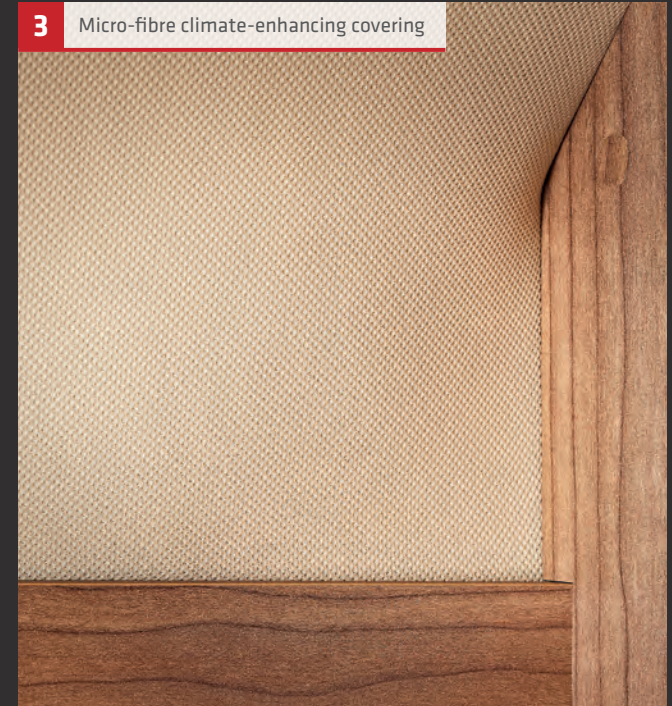

1 Elaborate body insulation measures

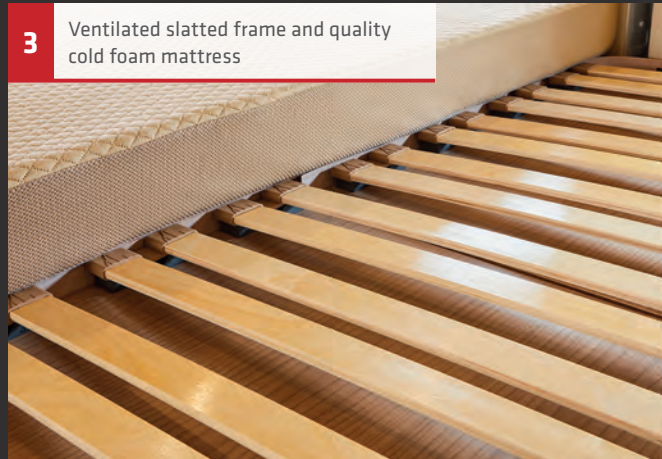

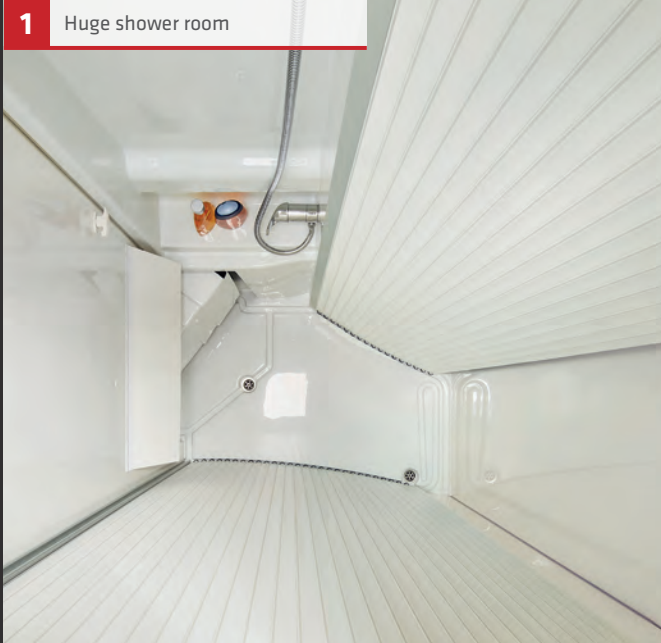

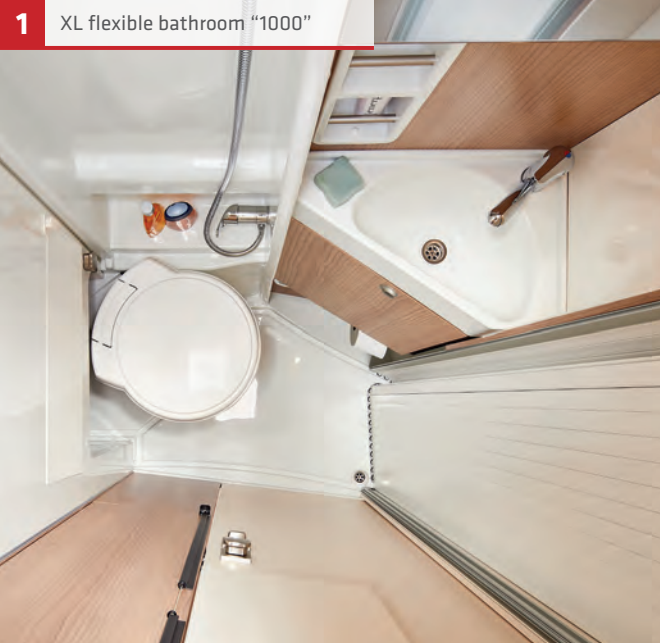

2 Side walls and main body frame members lined to prevent cold bridges

3 Micro-fibre climate-enhancing covering

BEST TRAVEL COMFORT IN THE VAN CLASS

4 Space-saving, two-piece sliding door

5 Mechanical closing aid

6 Elaborate ambient lighting

Highlights of the best travel comfort

- 1 XL flexi-bathroom "1000" with two sectional louvres for variable partitioning of the bathroom, the toilet or the completely separable shower cabin
- 2 Large lounge seating area and unique feeling of spaciousness for the exclusive line with additional interior height
- 3 The extra-long bed lengths for maximum sleeping comfort, protection from impacts and cold at the top end of the beds, ventilated slatted frame and quality cold foam mattress for excellent sleeping comfort
- 4 Space-saving, two-piece sliding door for extra-wide bathroom access and living area passage without restrictions with bathroom door open
- 5 Easy and silent sliding door closing thanks to the mechanical self-closing mechanism
- 6 Elaborate ambient lighting with indirect accent lighting in entrance area and lounge seating area (ambient lighting controllable separately)

All details are model-dependent

HIGH QUALITY FURNITURE CONSTRUCTION WITH MIT DOUBLE CONNECTION TECHNOLOGY

1 Double connection technology

2 High quality, robust metal hinges

3 Fold-out extension to kitchen work surface

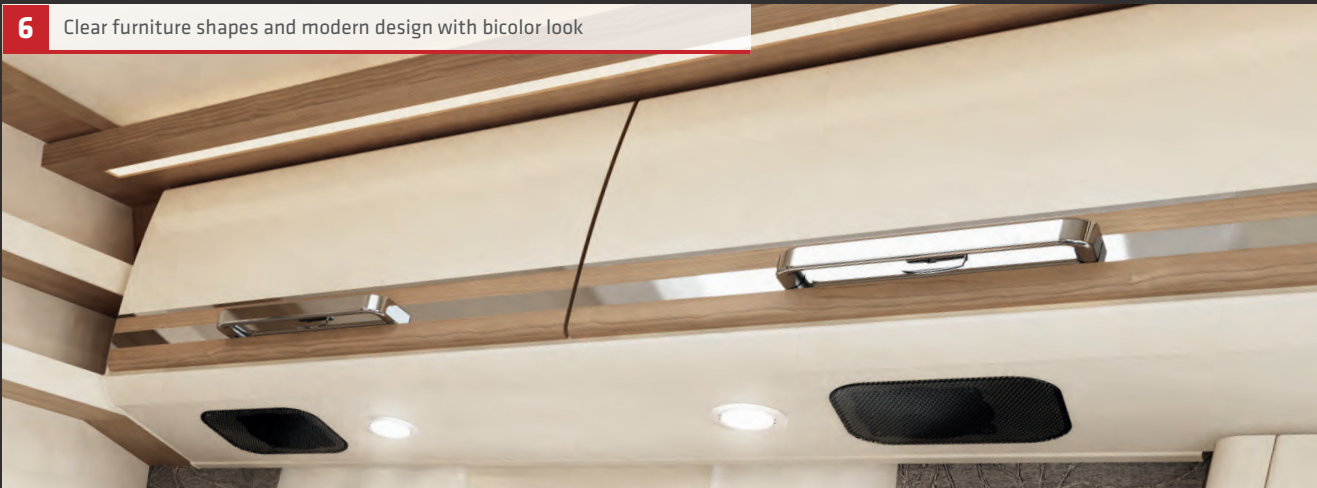

4 Roller-mounted kitchen drawers with self and soft closing mechanism

5 Spacious overhead storage compartment lined with microfibre covering

6 Clear furniture shapes and modern design with bicolor look

7 Two elegant designer shelves

Highlights of the high-quality furniture design

- 1 Double connection technology: the furniture is screwed together and also mortised - for maximum stability and longevity
- 2 High quality, robust metal hinges and fittings
- 3 Swing-out extension to kitchen worktop - flush, no height difference
- 4 Roller-mounted kitchen drawers with self and soft closing mechanism
- 5 Spacious overhead storage compartment lined with microfibre covering for reducing the noise level while driving
- 6 Clear furniture shapes and modern design with two-tone look
- 7 Two elegant designer shelves above the lounge seating area
